Muhammad Fezan

Frontend Developer

I am a Solution-driven web developer who is adept at contributing to highly collaborative work environments and finding solutions. Proven experience developing consumer-focused websites using WordPress, HTML, CSS, PHP, and JavaScript, React.js, Node.js. Good knowledge of the best practices for web design, user experience, and speed.

Experience

● MERN Stack Web Developer

From October 2023 to April 2024 **ZYSOFTEC** Remote

- I have developed the frontend of the Websites using ReactJs
- build the frontend using tailwindcss, bootstrap, ant design, etc.
- build the backend of the websites using NodeJs and MongoDB
- worked with REST APIs and GraphQL
- Integrated third-party services like Stripe

● Full Stack Web Developer(MERN)

Since February 2019 **Fiverr - Freelancing**

- Worked as a ReactJs and MERN Stack Developer
- Provided effective troubleshooting and remediation for web applications.
- Planned, developed, tested, deployed, and maintained web applications.
- Worked to solve problems using the latest Web Technologies.

Projects

● News Aggregator Website Using API and Local News

Since December 2022

- A Full Stack Application with React front end and Node.js.
- News is populated from an external 3rd party API.
- Local news is scraped using Puppeteer and populated on the front end.

● Amazon Clone MERN Stack

November 2022

- developed frontend using ReactJs and Material UI
- backend developed using Node.js, Express.js, MongoDB
- hosted on hostinger(backend) and firebase(frontend)

● Nike Clone Using Tailwind and React

October 2023 Gujranwala, PK

- used tailwind as to style the entire website and make it responsive
- used react to perform all the logic and structure the website

● Student Dashboard - NextJs + Tailwind + Nodejs + Firebase

From October 2023 to November 2023

- worked on Nextjs for better performance
- used Firebase Realtime Database
- user can upload CSV file of Student data that directly stores in Firebase
- user can edit, delete the entries
- TailwindCSS for beautiful user interface components
- Nodejs used as a backend technology

● Todo App using Tailwind and TypeScript React

October 2023

- have worked on React TypeScript
- build the UI with TailwindCSS
- pushed on Github
